

Definition (Square of sum)

This is a def..

Definitions

these are some other defs...

Theorem

$$(a + b)^2 = a^2 + 2ab + b^2$$

Corollary (1)

This is a corollary

Definition (Square of sum)

This is a def..

Definitions

these are some other defs...

Theorem

$$(a + b)^2 = a^2 + 2ab + b^2$$

Corollary (1)

This is a corollary

Proof.

$$(a + b)^2 = (a + b)(a + b) = a^2 + 2ab + b^2$$

Definition (Square of sum)

This is a def..

Definitions

these are some other defs...

Theorem

$$(a + b)^2 = a^2 + 2ab + b^2$$

Corollary (1)

This is a corollary

Proof.

$$(a + b)^2 = (a + b)(a + b) = a^2 + 2ab + b^2$$

Example

$$(3 + 5)^2 = 3^2 + 2 \times 3 \times 5 + 5^2 = 64$$
